#### Motivation:

I am British, married to a Greek and father of two boys: one in P3 English, and the other in a British school in Brussels.

I hold a Phd in Physics and Masters in Computer Science, and I have always worked in a scientific research environment, either for Governments or the European Commission. Currently, I research at the Royal Military Academy in Brussels.

I would like to help to improve the school in two areas:

1. Diversity of after-school activities, in particular, towards science.
2. Transport, since I appreciate that it is difficult to organize this for a big school.
