Motivation:

Mother of a 9 years old girl, I have tried to contribute to the management of the Association of parents of the European School of Laeken. I have a full time work, my dear family and other activities, .I started my cooperation with the APEEE IV in 2014. During these two years I was appointed as VP Admin, a role that requires a strict and continue engagement at many levels, since the general affairs touch upon all the services. I was also involved in the Communication Working group and the SEN one. This is a voluntary job, very demanding and stressful in rush periods. My experience is however positive and I have the willingness to continue since we do have still projects to accomplish. This experience deepened my skills in dealing with cultural and personal differences and strengthened my convictions in the teamwork.

Many steps have been done: the setting up of ad hoc working groups, a tem building for internal APEEE staff as well as for APEEE CA members, clearer rules for recruitment, update of the website and the search for more professional versions, the set-up of a cafeteria, the set-up of cards for students valid for all services, the setting up of a social fund and so on. These examples are given just to remind some of the most important examples of our work. There is still a lot to do, and I prefer to build on a constructive approach than to criticize from the outside.
