**Motivation:**

My name is Serge Julvecourt and besides that I am father of a student attending the EEB IV since Sep 2015, I am also one of the four class representatives of the NL section of the secondary section.

Recently I participated in meetings concerning the changes of the statutes and devoted my time to provide some feedback on the statutes proposal for the upcoming General Assembly. This was a good occasion to learn more about the future of the association.

Beside that the school can benefit from greater parental participation to benefit the students, there is also room for improvement in the relationship between the school, the teachers and the board. These needs are constantly evolving and therefore the APEEE could focus and invest more time on strategies and workflows that increase the quality of the facilities and services and by doing so creating an optimal and adaptive environment that meets the expectations of the students, the parents, teachers and school.

There are many domains where parents can contribute helping the board to improve the quality of the services. I like to contribute in Extra-Curricular, pedagogical, or Community

Fond projects and work with other parents and teachers of the secondary section across the organization on improvements and clarifications which would benefit to all of us and especially to our children and the next generation.
