Dear Parents,

This is the third year my daughter is attending the European School in Laeken and now that I know more about the School and the APEEE, I would like to actively contribute to the tremendous work done by the Parents' Association.

I am convinced that we, parents, should all support the APEEE to reach its goals. I know it's a matter of time as we are all too busy, but it's all about our children and this should be the driving force to improve the parents' engagement. How? By improving communication, by e-mail and on the website, and to promote even more the various activities managed by the APEEE. It would be useful to show what the parents' contribution means in practice, by providing real examples throughout the year and not limiting it to the reporting at the Annual General Assembly. For example, Somerfesto could be the first test case!

When it comes to the newly proposed statute for the APEEE, I strongly believe that reducing the number of class representative to 2 is not helping the cause to improve parents' engagement. We should aim to have at least 3 with a maximum of 4, then each class will decide how many parents are ready to stand up as class representatives. Being a class rep means that you can vote on important topics for the APEEE, fast-lane for motions of common interest and more importantly we can share your views being a class rep, which in my view makes a difference versus sharing your personal view.

I would be happy to support the APEEE being more visible and increase the importance among the parents and I will be happy to support the Administrative Board in any task they consider I can contribute on being a newcomer!

See you at the AG on 24th January!

Emanuela
